

Journal of Atmospheric Electricity

Vol.38, No.2, 2019

CONTENTS

- Gust prediction by a high density ground surface observation network (POTEKA)**
Hisato Iwashita, Toshiaki Morita, Koji Shibata, Fumiaki Kobayashi
53 - 66
- Effect of geomagnetic storms on VLF waves at low latitudes based on the analysis of whistlers and VLF emissions observed at Indian ground stations: A Review**
K.K. Singh, A.P. Mishra
67 - 100
- Statistical relation between earthquakes and radiation dose increments at the radiation monitoring post**
Yuya Ogura, Kuniyuki Motojima
101 - 112
